

# Monthly Indicators

## December 2017

The number of homes for sale, days on market and months of supply were all down in year-over-year comparisons in a majority of the country for the entirety of 2017, as was housing affordability. And although total sales volumes were mixed, prices were consistently up in most markets. Buyers may not benefit from higher prices, but sellers do, and there should be more listing activity by more confident sellers in 2018. At least that would be the most viable prediction for an economic landscape pointing toward improved conditions for sellers.

New Listings were up 4.5 percent to 324 in Stark County and up 26.7 percent to 19 in Carroll County. Pending Sales increased 12.7 percent to 292 in Stark County and increased 15.8 percent to 22 in Carroll County. Inventory shrank 22.0 percent to 928 units in Stark County while grew 1.0 percent to 106 units in Carroll County.

Median Sales Price was down 1.6 percent to \$127,000 in Stark County and down 2.3 percent to \$126,000 in Carroll County. Days on Market in Stark County decreased 13.8 percent to 69 days in Stark County and decreased 11.5 percent to 100 days in Carroll County. Months Supply of Homes for Sale was down 25.0 percent to 2.4 months in Stark County and down 2.2 percent to 4.4 months in Carroll County, indicating that demand increased relative to supply.

Unemployment rates have remained low throughout 2017, and wages have shown improvement, though not always to levels that match home price increases. Yet housing demand remained incredibly strong in 2017, even in the face of higher mortgage rates that are likely to increase further in 2018. Home building and selling professionals are both cautiously optimistic for the year ahead. Housing and
